

Assignment 9

- Using the data and tool of your choice, create and submit:
 - A geospatial chart
 - A time series chart

The above geo spatial graph shows no. of killed people in each state due to shoot out in USA in the year 2018. The color intensity increases in the states where there have been high kills indicating Texas has high kills in the year of 2018.

The above graph shows no. of killed and no. of injured people due to shootout incidents in USA across different years which has been maximum in the year 2017.
